INDIE APP STUDIO FOR EVERYDAY LEARNING

We craft beautiful learning apps

Sakura App Studio — Private Limited

From NEET medical-entrance prep and JLPT & TOPIK language journeys to AI-powered life-sciences mastery — we design calm, focused apps that make learning a daily habit. And beyond our own apps, we build beautiful, custom apps for founders and businesses too.

5 Learning apps | AI-powered | Offline-friendly | Private by design

ABOUT THE STUDIO

Learning that feels calm, not cluttered

Sakura App Studio is an indie app studio crafting premium, focused learning apps for students and lifelong learners. We pair thoughtful, distraction-free design with solid engineering so studying feels inviting instead of stressful.

Our portfolio spans medical-entrance prep, language journeys, AI life-sciences tools and more — and beyond our own apps, we build beautiful custom apps for founders and businesses.

What every Sakura app stands for

Calm & premium
Distraction-free interfaces that make studying inviting.

Gamified
Streaks, XP and levels turn learning into a daily ritual.

Offline-friendly
Core learning works anywhere, even without a connection.

Private by design
Secure per-user data and in-app deletion. It stays yours.

THE PORTFOLIO

Explore our apps

Calm, beautiful apps that make learning a daily habit — across medicine, languages and life sciences.

NEET Mentis

OUR FLAGSHIP · NEET MENTIS

Everything you need to crack NEET

From a massive MCQ bank to full-length CBT mocks and real-time battles, NEET Mentis makes practice serious, structured and effective — all in one beautifully designed app.

1,15,000+ MCQs

A massive, curated question bank across Biology, Physics and Chemistry — every question with per-option explanations.

CBT Mock Tests

Full-length mocks in the real NEET computer-based-test format, with authentic timing and marking.

Real-Time Battle Mode

Challenge others in live question battles — a fast, competitive way to keep revision sharp.

NCERT Explainer

Clear, chapter-wise concept explanations mapped to the NCERT Class 11 & 12 syllabus.

Progress Tracking

Analytics, XP, coins, streaks, achievements and leaderboards to keep you consistent.

Progressive Difficulty

Level up at your own pace — Beginner to Intermediate to Advanced.

Three steps to NEET-ready

1

Practice

Work through 1,15,000+ MCQs by subject and chapter, with per-option explanations.

2

Test & Battle

Take full-length CBT mocks in real NEET format, then compete in live Battle Mode.

3

Track

Follow analytics, XP, streaks and leaderboards to know exactly what to revise next.

WORK WITH US

Have an app idea? We'll build it with you.

Beyond our own apps, we design and build beautiful, production-ready apps for founders and businesses — pay in full and own 100%, or team up through a 50/50 growth partnership with a lower upfront cost.

Full payment

Pay in full and own 100% of your finished app — end to end.

50 / 50 partnership

Lower upfront cost through a shared growth partnership.

Reply in 48 hours

Share your idea and our team responds within 48 hours.

EVERYTHING YOU NEED TO LEARN — BEAUTIFULLY CRAFTED

NEET prep · Battle Mode · JLPT N5–N1 · TOPIK I & II · Life Sciences MCQs · Lab practicals · OCR scanning · AI answers & assistant · Spaced repetition · Streaks & XP · Offline learning · PDF export

LEADERSHIP

The team behind Sakura

FOUNDER & CEO

Shariq

Full-Stack Developer with **4.8 years** of experience, Shariq designs and builds every Sakura app end to end — across Android, web, cloud and AI. Ex-Fujitsu banking technology, with on-site delivery in Japan (Bronze Award, JLPT N5).

Android · React.js · Node.js · Azure · AI Integration

Delhi, India · +91 96432 37107

CO-FOUNDER

Md Zaid Hussain

Molecular Biologist & Biotechnologist (**M.Sc. Biotechnology, Jamia Hamdard**) and published researcher. Zaid leads scientific accuracy, content quality and curriculum depth across Sakura's learning apps.

Molecular Biology · Research · Content & Curriculum · Bioinformatics

New Delhi, India · Published Researcher
